Average faculty salary		school	faculty_salary	AVGFACSAL	integer					IPEDS	Average faculty salary per month, calculated from the IPEDS Human Resources component. This metric is calculated as the total salary outlays divided by the number of months worked for all full-time nonmedical instructional staff. Prior to the 2011–12 academic year, when months worked were reported in groups, the value for 9–10 months is estimated as 9.5 months and the value for 11–12 months is estimated as 11.5 months. Values prior to the 2003–04 academic year are limited to degree-granting institutions for consistency with values in subsequent academic years.

This metric is calculated by IPEDS as the quotient of the number of Pell grant recipients divided by the count of all undergraduates for either a fall enrollment cohort (for institutions that primarily follow an academic year calendar system) or a full-year enrollment cohort (for institutions that primarily follow a continuous enrollment or program-based calendar system). Proportions are expressed as decimals rounded to four decimal places, so, for example, 0.1234 equals 12.34 percent. This metric is not available prior to the 2008–09 academic year.
